SUMMARY

Front-end developer building responsive, accessible web interfaces with HTML5, CSS3, and modern JavaScript. Focused on clean UI, thoughtful UX, and pixel-aware design — from landing pages to interactive web apps. Self-directed remote professional with 4+ years of independent client work and a portfolio of deployed projects.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Styling: Flexbox, CSS Grid, Responsive Design, CSS Animations & Transitions, Media Queries

Libraries: React, Tailwind CSS

Browser APIs: DOM Manipulation, Fetch API, localStorage, Event Handling

Tools: Git, GitHub, GitHub Pages, VS Code, Chrome DevTools

Concepts: Mobile-First Design, Accessibility (a11y), UI/UX Principles, Component-Based Architecture

SELECTED PROJECTS

Lumina — SaaS Landing Page github.com/BrittanyNation/lumina-landing

HTML5 · CSS3 · JavaScript

- Designed and built a fully responsive marketing landing page with hero, features, pricing, and testimonial sections.
- Implemented scroll-triggered animations, smooth navigation, mobile hamburger menu, and interactive pricing toggle with vanilla JavaScript.
- Mobile-first CSS using Flexbox and Grid; semantic HTML with accessibility best practices.

Taskflow — Interactive Task Manager github.com/BrittanyNation/taskflow-app

HTML5 · CSS3 · JavaScript (ES6+)

- Built a drag-and-drop kanban task manager with add, edit, delete, filter, and search functionality.
- Persistent state with localStorage; dynamic DOM rendering with no frameworks.
- Clean, modern UI with CSS custom properties for theming and smooth micro-interactions.

Sovereign Invoice Generator github.com/BrittanyNation/sovereign-invoice-generator

HTML5 · CSS3 · Vanilla JavaScript

- Frontend utility app with dynamic form handling, real-time calculations, and print-optimized CSS for clean PDF output.
- Client-side data persistence with localStorage; object-oriented JavaScript architecture.

EXPERIENCE

Independent Client Advisor

Nov 2021 – Present

Keen (Ingenio LLC) · Remote, 1099 Contractor

- Deliver one-on-one advisory sessions via chat and messaging in a fully remote, self-directed environment.
- Maintain 99.8% documentation accuracy across thousands of client records with strong written communication.

EDUCATION

- Western Governors University — B.S. Software Engineering, in progress
- Udemy — Full Stack Web Development coursework
